New Listings

In 2015, Airbnb reached the highest numbers of new listings. Growth slowed in 2016 and 2017 due to market challenges and tighter local regulations. Despite this, Airbnb became profitable in 2016 and 2017, marking a major milestone. From 2018, the platform experienced renewed growth, but new listings declined in 2019 and dropped sharply in 2029 due to the COVID-19 pandemic.

Market Share By City

Paris, NYC, and Sydney account for almost half of the total listings and ratings (48%) of all reviews.

Paris is the city with the most listings and reviews. A possible driver is that prices for hotel rooms being twice as much as Airbnb.

Review Frequency

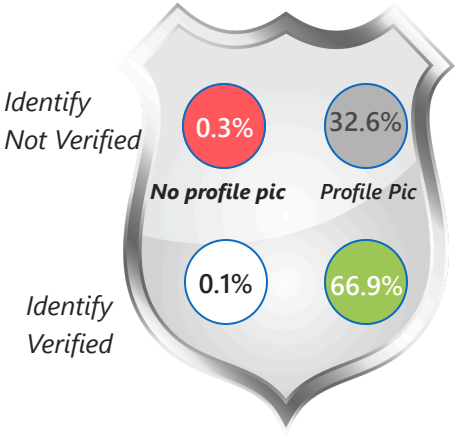

Reviews provide information about the customer order frequency.
Most of the customers wrote a review only once.
98.8% of the customers did so 3 times or less.
One customer wrote 283 reviews: last two on 13-Oct-20, of two listings in Bangkok. (Data error or globe-trotter?)

Review Frequency

Seasonality

Paris and Rome dominate review share from April to August, reflecting peak European summer travel.
New York saw an increase in November and December during the holidays season.

Over two-thirds of Airbnb hosts are fully verified, while nearly all hosts provide at least one trust signal, keeping unverified and anonymous profiles to a minimum
